

# PALMARY AMERICA

Lowest Price. Extreme Precision. Premier Performance.

## TECHNICAL DATA SHEET

### PalmaClean 710

#### DESCRIPTION:

PalmaClean 710 is designed to clean machines, lines, tanks, and all associated equipment that have collected contaminants in the form of various soils, water insolubles, metallic fines, grits, and bio-films.

It is strongly recommended that machines and systems are properly cleaned prior to charging with fresh coolant. If machines are free of dirt and bacteria, conditions are optimized for supporting an efficient, long lasting coolant - a prime requirement with today's high performance machinery.

#### TYPICAL SPECIFICATIONS:

PHYSICAL STATE	Liquid
APPEARANCE	Amber
ODOR	Chemical
SPEC. GRAVITY	1.040
pH CONCENTRATE	9.0-9.5
pH @ 5%	8.8-9.3
NITRATES	None
PHOSPHATES	None
FOAM TEST	Pass

#### BENEFITS:

- Solubilizes hard water soaps that have accumulated on the surface
- Chemically loosens dirt and grease from inaccessible areas
- Breaks up metal deposits in machine lines and sumps
- Disinfects machines by killing bacteria and fungi
